

Ontario is poised to pass one of the cruelest dog laws in the world.

If passed Bill 132 will:

- see dogs that end up in shelters killed or sent for animal research
- grant new powers of search and seizure that apply to all dogs deemed to be "menacing"
- exterminate 3 distinct breeds

If you think Bill 132 is just about "pit bulls" - which is not a breed but a type, then you are wrong.

When it comes to breed bans, Bill 132 opens the door to allow the government to ban other breeds.

Where will it stop?
