COMMON SENSE, HONESTY AND INTEGRITY IN THE LIBERAL GOVERNMENT

The Liberal Government wants to ban our dogs. They are starting with "pit bulls" but you can expect to see all large breeds on their list very soon.

Michael Bryant's law will allow the police to enter your home, seize your dog, and hand your pet over to labs for animal research - without a warrant! All they need is a neighbour complaint *alleging* that your dog poses an "immediate threat".

Help stop this insanity!

Contact Maria Van Bommel immediately to demand that the Liberal government scrap Bill 132 in favour of an Accountable Dog Owners Act, not Breed Bans!
